ALFA Cleaner

Technical Data Sheet

Product:

ALFA Cleaner is a hand cleaning product which is applied without water, hygienic, gentle to the skin and returns natural oils. Free of silicones, terpene hydrocarbons and scrubbing additives.

Specification:

Composition:	washing active substances
Density:	0.87 g / cm ³
Color:	white up to light yellow
Shelf life:	at < 25°C in unopened original packaging 12 months
Cleaning:	washable with water
Packaging:	Cans to 500 ml or in boxes with 12 cans, and in cans to 4.5 kg

Application:

ALFA Cleaner should be applied to hands with the usual wash motions, afterwards wiped off with a clean cloth or flushed with water. ALFA Cleaner is dermatologically tested.

Important notice:

ALFA Cleaner complies with the EC cosmetics regulation No. 1223/2009 and is harmless to health when used as intended. The particulars in this data sheet are based on our present knowledge and experience. A legally binding assurance of certain properties or suitability for a specific purpose cannot be derived from our information. The user is obliged to carry out his own tests with the original materials under the specific conditions before using this product. For damages in applications for which the product is not intended, we assume no liability. Proprietary rights, existing rules and regulations are to be obeyed by the receivers of our products in their own responsibility. In the case of inconsistencies between different translations, the German version shall prevail.
